

Podpěra's Support of Young Beekeepers 1

Introduction

I would like to introduce myself a little bit.

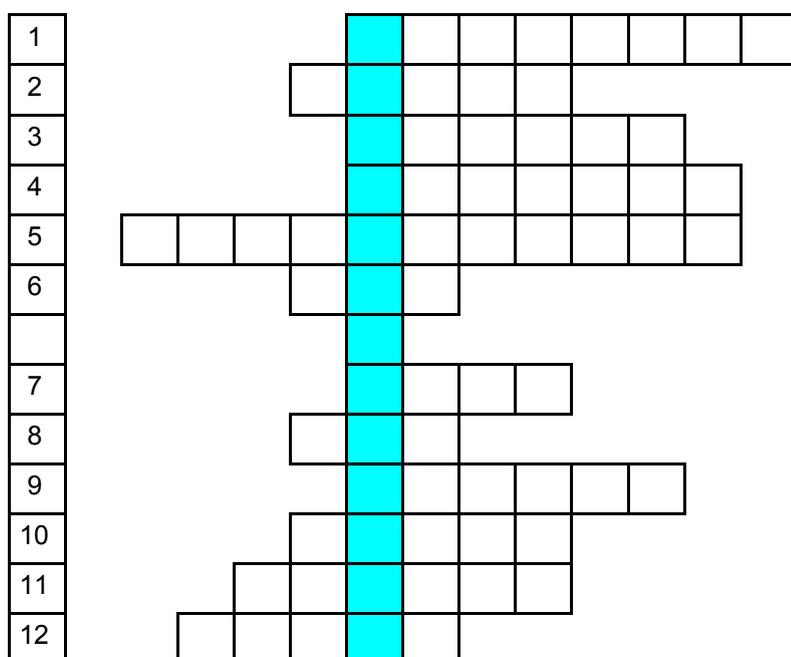

I am a leader of a beekeeping club, a teacher of Maths, Physics, English in a Czech grammar school in one small city about 50 kilometres north of Prague.

I like to prepare crossword puzzles and other riddles or tasks for children and young people about bees and beekeeping. I make it in Czech language.

My friend asked me if I could try to prepare some tasks in English.

My family name is Podpěra. It means "support" in English. That's why the name "Podpěra's Support".

Task 1

1. It is a bee's product. Bees disinfect it's beehive with it.
2. A mother bee lays eggs into comb cells. Small larvae emerge from eggs. We have a special name of bee's larvae.
3. It is a place where we can see many beehives.
4. During spring a bee colony is g_____ .

5. During time when not many plants are in flowers beekeeper can give _____ feeding. A bee colony can better grow.
6. The name of an insect that produce honey for people.
7. It is made of hexagonal cells. Bees make it from wax.
8. It is a product of bees. People can make candles of it.
9. Bees collect nectar and put it into cells. They make _____ for winter time.
